## HISTORY

Binova is a company that has represented excellence in the high-end kitchen market for over 60 years. Throughout its long history, the brand has won countless international awards. These awards enhance the brand's natural attitude to always project itself forward, through patents that revolutionize deep-rooted convictions and through inventions that anticipate trends and greatly simplify living. Binova was born in 1958 in the laboratory of Giovanni and Francesco Bolletta, two very young carpenters from Petignano d'Assisi, who integrate craftsmanship with technological innovations from the American automotive world. Soon, from a simple workshop, the company turns into an industrial reality that contributes to writing the history of world design. The Binova collections, born from a continuous design research, are characterized by absolutely innovative and revolutionary products that are distinguished by an extraordinary attention to detail and a unique and unparalleled attention to quality. 2016 a new chapter in the history of Binova begins with the passage to the Cubo Design group, an established Abruzzo company led by Antonio Arangiario. The industrialist boasts a consolidated experience in the modular kitchen sector that has allowed him to establish himself as the absolute protagonist in the wood-furniture sector. Equipped with a far-sighted entrepreneurial culture and an innate sensitivity in perceiving the needs of the market and foreseeing changes in style, he gives the brand new life and a strong identity. Substantial investments go hand in hand with incessant research and development, always keeping intact both the technological know-how and the refined character and typically Italian design with a contemporary flavor that have made the brand successful. Thanks to the current company course, innovative shapes and materials become part of the Binova heritage and collections able to meet the highest aesthetic standards are born. In 2017, Binova continues its unstoppable growth with the opening of the first flagship store in the Milanese design district with an exhibition area of 350 m<sup>2</sup>. 2019, on the other hand, is the year of transformation at the production level, since FactoryOne is inaugurated, the brand's avant-garde factory in which each component is processed starting from scratch, guaranteeing maximum quality control and unlimited product customization possibilities. In 2021 the highly anticipated home system is launched, an integrated project characterized by collections no longer intended solely for furnishing the kitchen environment but which, in a continuum of finishes, embrace the living area, even contaminating load-bearing architectural structures such as the pillars. A further evolution of this concept and novelty of 2022, is the Bath Architecture, the first catalog entirely dedicated to the bathroom for a house in a Binova total look that represents the sign of the continuous rise of the brand.

## STORIA

Binova è un'azienda che da oltre 60 anni rappresenta un'eccellenza nel mercato delle cucine di alta gamma. Nel corso della sua lunga storia, il marchio ottiene innumerevoli premi internazionali. Tali riconoscimenti valorizzano la naturale attitudine del brand a proiettarsi sempre in avanti, attraverso brevetti che rivoluzionano convinzioni radicate e mediante invenzioni che anticipano i trend e semplificano notevolmente l'abitare. Binova nasce nel 1958 all'interno del laboratorio di Giovanni e Francesco Bolletta, due giovanissimi falegnami di Petrigliano d'Assisi, che integrano il saper fare artigianale con innovazioni tecnologiche provenienti dal mondo automobilistico americano. Ben presto, da semplice bottega l'azienda si trasforma in una realtà industriale che contribuisce a scrivere la storia del design mondiale. Le collezioni Binova, nate da una ricerca progettuale continua, sono caratterizzate da prodotti assolutamente innovativi e rivoluzionari che si distinguono per una straordinaria attenzione ai dettagli e una cura unica e impareggiabile per la qualità. Nel 2016 inizia un nuovo capitolo della storia di Binova con il passaggio al gruppo Cubo Design, affermata realtà abruzzese guidata da Antonio Arangiario. L'industriale vanta una consolidata esperienza nel settore delle cucine componibili che gli ha permesso di imporsi come protagonista assoluto nel comparto legno-arredo. Dotato di una lungimirante cultura imprenditoriale e di una innata sensibilità nel percepire le esigenze del mercato e prevedere i mutamenti dello stile, dà al marchio nuova linfa e una forte identità. Consistenti investimenti si affiancano a un'incessante attività di ricerca e sviluppo, mantenendo sempre intatti sia il know-how tecnologico, sia il carattere ricercato e il design tipicamente italiano dal sapore contemporaneo che hanno decretato il successo del brand. Grazie all'attuale corso aziendale, forme e materiali innovativi entrano a far parte dell'heritage Binova e nascono collezioni in grado di soddisfare i più alti standard estetici. Nel 2017, Binova continua la propria crescita inarrestabile con l'apertura del primo flagship store nel distretto del design milanese con una superficie espositiva di ben 350 m<sup>2</sup>. Il 2019 è invece l'anno della trasformazione a livello produttivo, dal momento che viene inaugurato FactoryOne, avanguardistico stabilimento del marchio in cui si lavora ogni componente a partire da zero, garantendo massimo controllo qualitativo e possibilità di personalizzazione dei prodotti illimitate. Nel 2021 avviene il lancio dell'attesissimo sistema casa, un progetto integrato caratterizzato da collezioni non più destinate unicamente all'arredamento dell'ambiente cucina ma che, in un continuum di finiture, abbracciano la zona giorno, giungendo a contaminare persino strutture architettoniche portanti come i pilastri. Ulteriore evoluzione di questo concetto e novità del 2022, è la Bath Architecture, primo catalogo interamente dedicato alla stanza da bagno per una casa in total look Binova che rappresenta il segno dell'ascesa continua del marchio.

## INNOVAZIONE 4.0 / INNOVATION 4.0

Il 2018 ha il sapore di un vero e proprio passo epocale per Cubo Design. Viene attuata una riorganizzazione radicale dei suoi asset principali, attraverso un'interpretazione del futuro ispirata ad efficienza, efficacia e rispetto dell'ambiente, che nel nuovo polo di 25.000 m<sup>2</sup> trovano concretezza grazie a soluzioni tecniche, informatiche ed energetiche, totalmente integrate: nasce Factory-One. Una struttura avveniristica, in cui la produzione di cucine viene affrontata e risolta con sistemi intelligenti, attraverso l'integrazione totale tra processi e controllo umano. Un percorso con andamento lineare e non più ad isole di lavoro, costituito da macchinari altamente tecnologici, interconnessi e contraddistinti da assoluta precisione, costantemente garantita mediante il controllo effettuato da manodopera specializzata. Appositi sensori che sfruttano il collegamento alla rete, permettono di monitorare le varie fasi della lavorazione industriale e di conoscere in tempo reale lo status delle apparecchiature su cui sono collegati. Un sistema d'eccellenza, in cui il concetto di industry 4.0 viene implementato in modo completo, divenendo propulsore del business di Cubo Design.

2018 has the flavor of a real epochal step for Cubo Design. A radical reorganization of its main assets is implemented, through an interpretation of the future inspired by efficiency, effectiveness and respect for the environment, which in the new pole of 25.000 m<sup>2</sup> are concretized thanks to fully integrated technical, IT and energy solutions: Factory-One is born. A futuristic structure, in which the production of kitchens is addressed and resolved with intelligent systems, through the total integration between processes and human control. A route with a linear progress and no longer with work islands, made up of highly technological machinery, interconnected and characterized by absolute precision, constantly guaranteed through the control carried out by skilled labor. Special sensors that exploit the connection to the network, allow you to monitor the various stages of industrial processing and to know in real time the status of the equipment on which they are connected. A system of excellence, in which the concept of industry 4.0 is fully implemented, becoming the driving force behind Cubo Design's business.

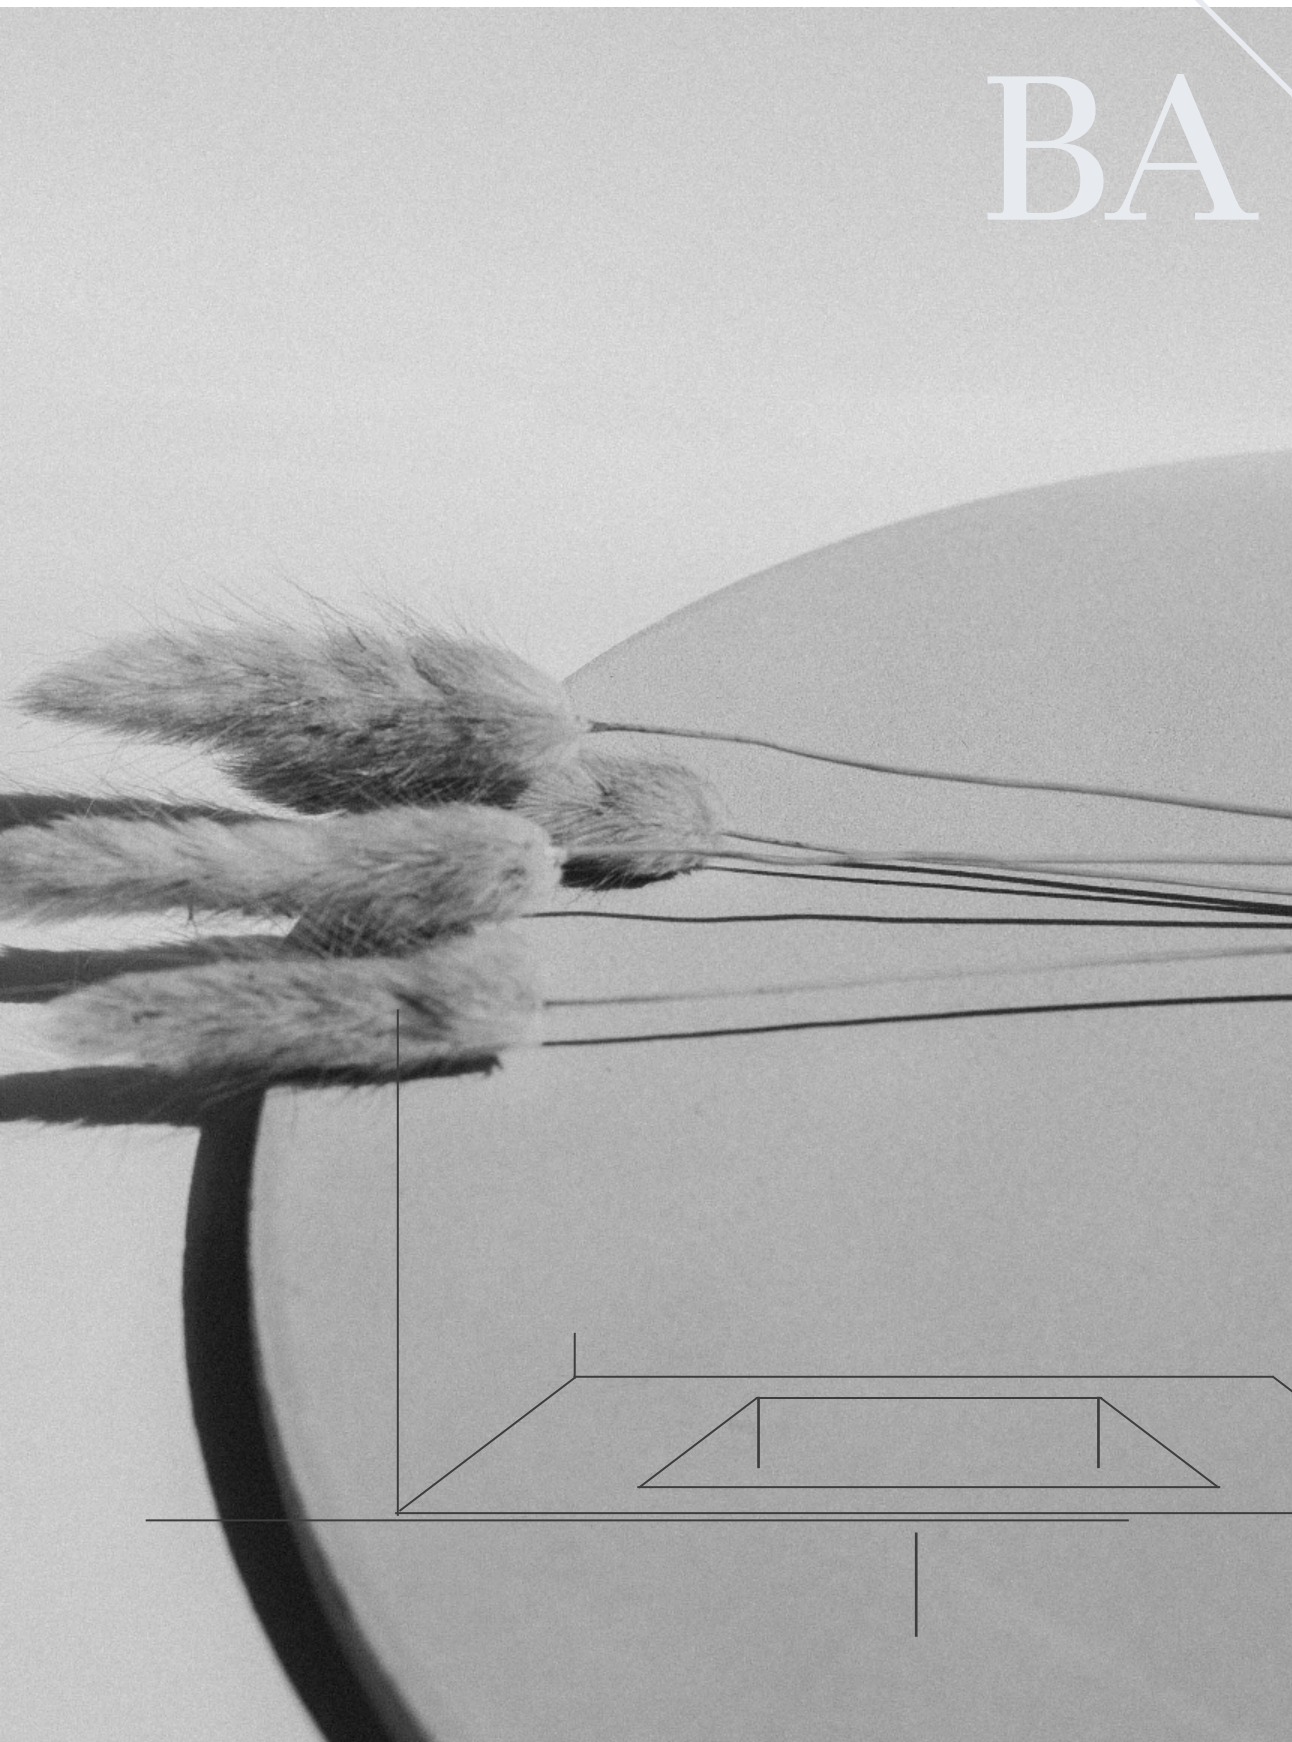

LA STANZA DA BAGNO SI EVOLVE E DIVENTA SPAZIO DA VIVERE, UNA  
NUOVA IDENTITÀ CHE DÀ UN VALORE INEDITO A QUESTO AMBIENTE  
THE BATHROOM EVOLVES AND BECOMES A SPACE TO LIVE, A NEW  
IDENTITY THAT GIVES A DIFFERENT VALUE TO THIS ENVIRONMENT

Al centro del pensiero della stanza da bagno firmata Binova vi è l'idea di una progettazione modulare che consenta la possibilità della massima personalizzazione. La proiezione continua verso il futuro si esprime attraverso la ricerca, l'innovazione e la passione. La visione antropocentrica si fonde a pieno con un design modulare raffinato, un progetto di arredo complementare personalizzabile e su misura volto a soddisfare ogni richiesta. Le collezioni sono progettate in 200 finiture diverse e oltre 100 tipologie di piani e lavabi per dare la possibilità di realizzare il proprio ambiente bagno in modo unico e originale.

At the heart of the bathroom designed by Binova is the idea of a modular design that allows for maximum customization. The continuous projection towards the future is expressed through research, innovation and passion. The anthropocentric vision blends fully with a refined modular design, a complementary customizable and tailor-made furnishing project aimed at satisfying every request. The collections are designed in 200 different finishes and over 100 types of tops and washbasins to give the possibility to create your own bathroom in a unique and original way.

Avola gres Piasentina taupe fiammato telaio alluminio bronzo. Altea struttura alluminio bronzo e bilaminato legno Noce Monza

# 01 AVOLA

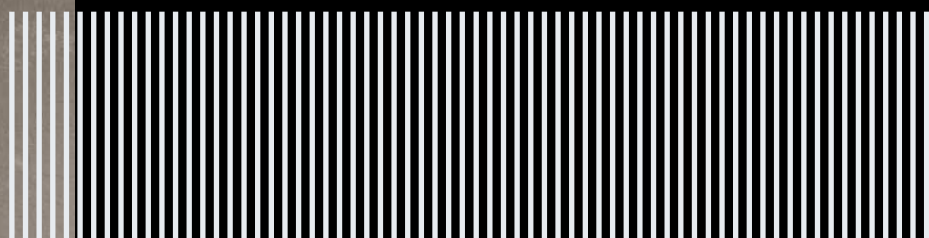

Un atto di grande libertà: quella del design minimalista che apre alla percezione di un'essenza marmorea che corre lungo i profili e le venature, segni precisi che diventano traccia comune e viva nel contrasto del chiaroscuro e nell'equilibrio costante tra l'estetica d'insieme e il punto del dettaglio.

This is an expression of real liberty: the minimalist design is free to run with its vivid essence along contours and grain, sharp lines that become a common sign, living in the light and shade, balancing the global aesthetics and the slightest particulars.

BLUNA

Bluna laccato opaco Salvia. Monoblocco rigato Taj Mahal opaco. Bluna legno Rovere grigio Londra

L'idea di uno spazio conviviale è al centro di questo progetto: un monoblocco in gres dallo spiccato valore estetico fa da padrone e predomina la scena in maniera incontestata.

The idea of a convivial space is at the center of this project: a gres monoblock with an unique aesthetic value dominates the scene in an undisputed way.

COLORFUL SURFACE COMBINATION

# BLUNA

è un marchio Cubo Design S.r.l.

Località Case Sciarroni - Grasciano  
I-64024 Notaresco - Teramo (TE) - Italy  
[info@cubodesign.it](mailto:info@cubodesign.it)  
[www.binova.it](http://www.binova.it)

Cubo design S.r.l. nel perseguire una politica volta al costante miglioramento, si riserva il diritto di apportare, in qualsiasi momento e senza preavviso, le modifiche ai prodotti che riterrà utili e necessarie. L'effettiva disponibilità di quanto a catalogo deve essere verificata al momento dell'ordine. A causa di naturali limiti tecnici di riproduzione e stampa, il colore dei modelli a catalogo è puramente indicativo e non può costituire motivo di rivalsa. Cubo design S.r.l. declina ogni responsabilità per difetti e malfunzionamenti di elettrodomestici ed apparecchiature: eventuali contestazioni dovranno essere rivolte direttamente al produttore ed ai loro centri di assistenza. In order to constantly improve its products, Cubo design S.r.l. reserves the right to modify its products as it sees fit, without prior notification. The effective availability of the articles in the catalogue, must be actually checked out at the time of the order. Because of natural technical limits of the method of reproduction and printing, the colour of the models in the catalogue is purely indicative and cannot be claimed as reason for compensation and legal action. Cubo design S.r.l. every liability for defects and malfunctioning of appliances and pieces of equipment: eventual claims will have to be addressed directly to the producers and their assistance centres.
